

MARLICE 2024

3rd International Forum
on Marine Litter and the
Circular Economy

CIRCULAR SOLUTIONS
FOR CLEAN OCEANS

22 - 24 May 2024
VALENCIA (SPAIN)

What is MARLICE 2024?

MARLICE is an international forum about marine litter and circular economy that has been running since 2019.

It is a meeting point for parties interested in gaining knowledge, experience and finding solutions.

It is organized by , with the goal of creating an efficient associative framework that will contribute to preventing and reducing the effects of the marine litter that reach the ocean.

Objectives

-  Foster synergy between the private and the public sector
-  Align the future strategies of the involved sectors
-  Reach compromises on an international scale
-  Involve the general public in the latest technological advances in marine litter

LOCATION

The port city of **Valencia** is situated on the coast in southeast Spain, where the river TURIA enters the MEDITERRANEAN.

The emblematic and iconic building **VELES E VENTS** in Valencia's harbor will be the forum's main location.

Between the historical building El Reloj and the futuristic Veles e Vent, from **22 to 24 may 2024** the events of our forum for the general public will take place in MARLICE4PEOPLE (exhibitions, workshops, etc.)

- 🐟 **250+** professionals from **30** countries
- 🐟 **23** international **SPONSORS**
- 🐟 **11** science sessions, **68** speakers
- 🐟 Percentages of the participation of different sectors: **31%** Private, **14%** Public, **27%** Research and **29%** civil society
- 🐟 **30+** project presentations
- 🐟 An audience of more than **one million** through social and mass media

KEY TOPICS

In **MARLICE 2024** we combine knowledge and experience to find solutions for dealing with marine litter through three different blocks: **governance, research & innovation** and **conservation**.

Governance

- European politics
- Conventions of European seas
- Extended producer responsibility
- The role of tourism
- Compromises in collaboration between the interested parties.

Research & Innovation

- New technologies
- Hotspots: innovatory solutions
- Circular economy, recovery and ecodesign
- Treatments and technologies of freshwater

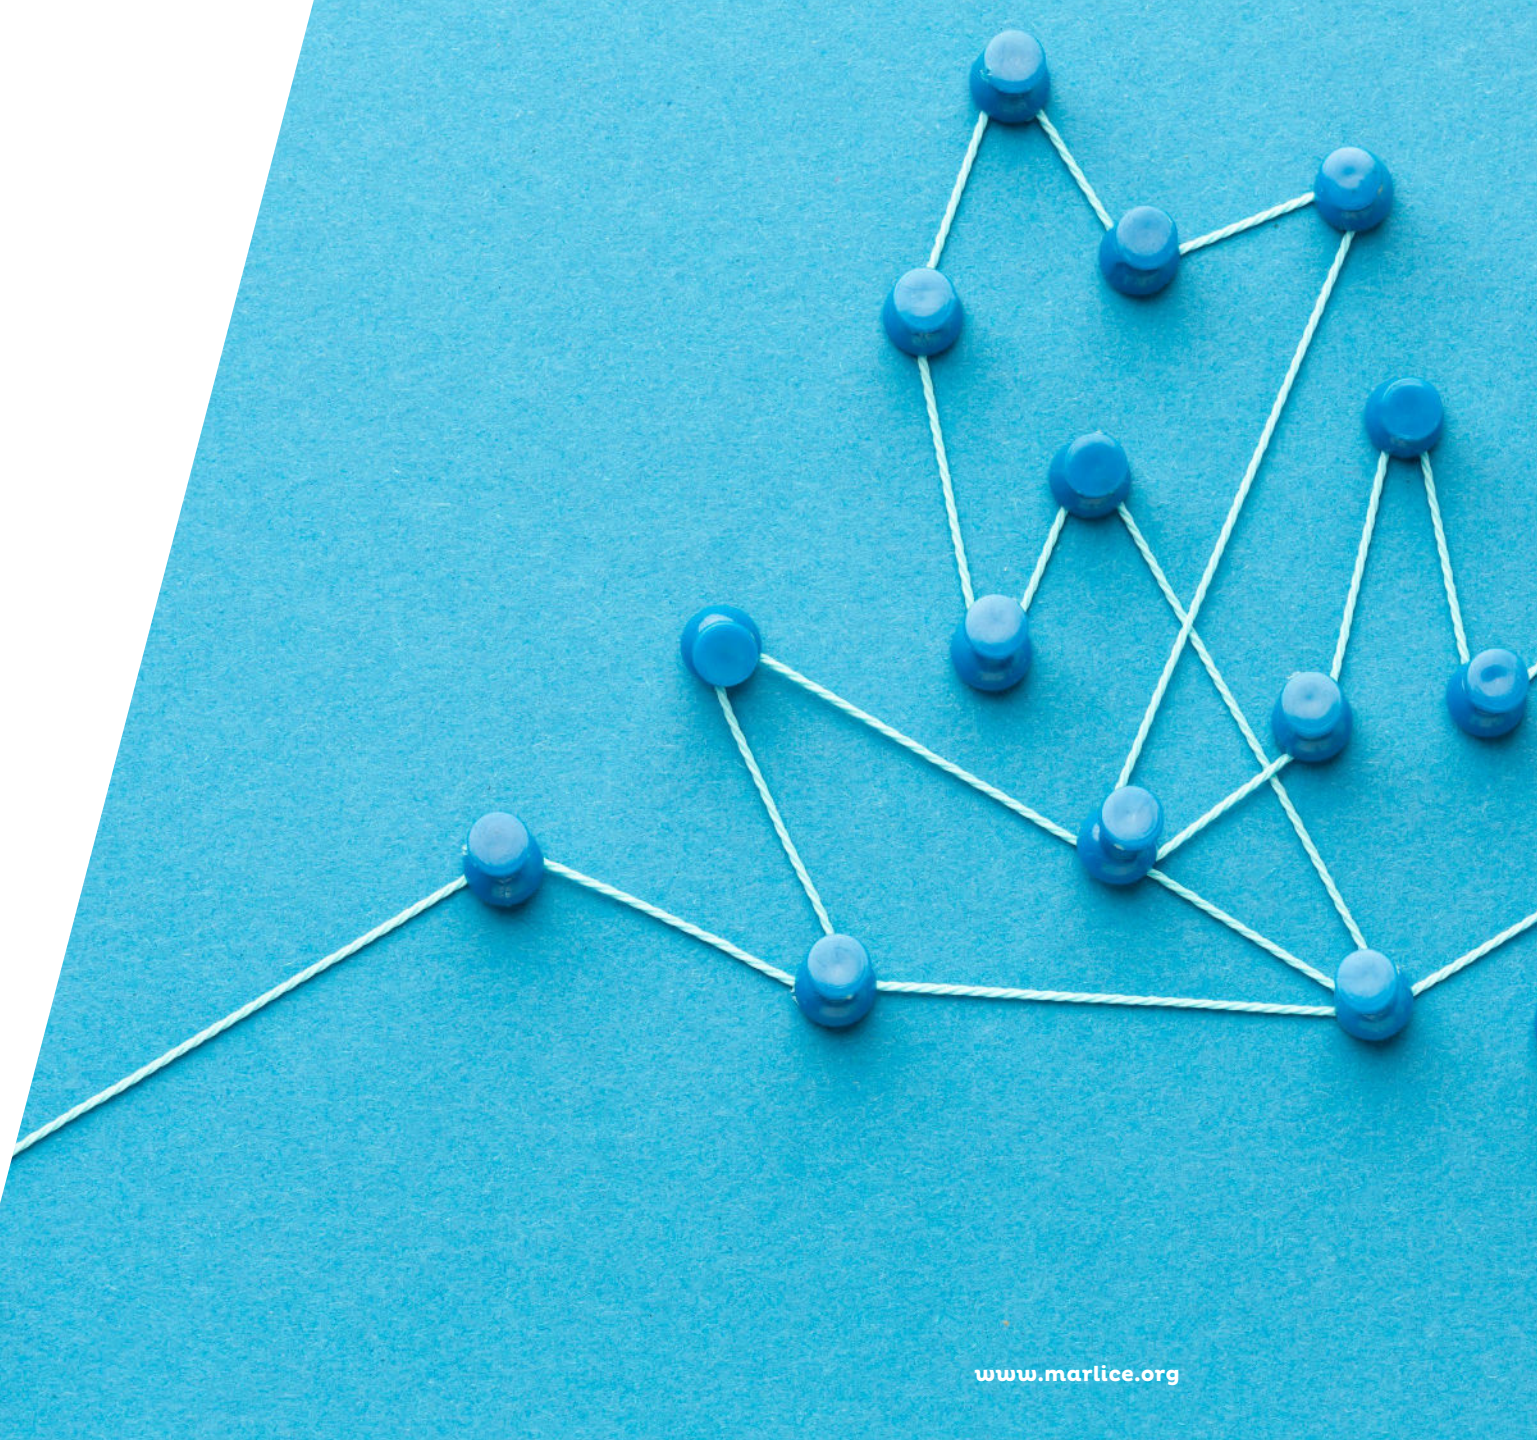

Conservation

- Prevention
- Species & habitats
- Fishing for litter
- Rivers as a source of marine litter

METHOD OF WORK

- 🐟 Planning sessions with international experts
- 🐟 Round tables and dynamic discussions on key topics
- 🐟 Workshops in multifunctional halls
- 🐟 Designing spaces for networking

MARLICE 4PEOPLE

a forum open
to the PUBLIC

A TOOL FOR RAISING AWARENESS

Opening up discussions
with consumers

Turning MARLICE
into a key actor in
making a change

Developing a
powerful strategy
of communication

These are some
planned activities...

- 🐟 A photography contest
- 🐟 Interactive workshops
